

SEANNA ROSS

INTERIOR DESIGNER

Healthcare Hospitality Human-Centered Design

OBJECTIVE

Experienced interior designer specializing in healthcare and commercial environments, integrating human experience, technical rigor, and interdisciplinary collaboration to create high-performing spaces.

EXPERIENCE 2018 - PRESENT

Principal/Owner

RossParson Industries, LLC | 2022 - Present

- Lead project management and production efforts for commercial interior projects in collaboration with architecture and design firms
- Coordinate interdisciplinary teams to deliver fully realized, code-compliant environments
- Oversee permitting and life safety review processes across multiple jurisdictions

Director of Healthcare Interiors

S. Tipton Studio | 2018 - 2022

- Established healthcare-specific design standards and workflows to support clinical project delivery
- Led and mentored a team of designers, overseeing quality control and project execution
- Directed departmental growth through financial planning and strategic client development
- Provided client outreach and support through targeted marketing initiatives

EXPERIENCE 2002 - 2018

Project Coordinator

idGroup | 2017-2018

- Coordinated design drawings for permit submission and construction
- Collaborated with larger design teams to apply practical solutions to achieve specific design objectives
- Supported day-to-day operations through client management, standards updates, and production

Healthcare Interior Designer

BSA Lifestructures | 2013-2017

- Managed dedicated clients associated with larger healthcare networks.
- Provided new, functional spaces from conception through delivery based on client objectives and brand requirements.
- Managed project documentation, budget, and construction teams for clinical and institutional facilities nationwide.

CAD Technician | Interior Designer

KDS Architecture | 2004 - 2009

- Supported senior level designers and staff through day-to-day directed tasks
- Provided documentation for all project phases
- Handled drawing exchange and formatting across multiple disciplines
- Provided basic project management
- Collaborated with city officials to design multi-phased production facilities
- Worked closely with engineers to deliver large scale warehousing and production facilities
